4th Annual HR Congress

Theme:
**Millennium HR:
Honor the Past.
Treasure the Present.
Shape the Future.**

Introduction:

Human Resource Management has evolved through the centuries and changes in the economic conditions of the 21st century have necessitated the need for HR to take on additional responsibilities. For instance HR staff began actively participating in business decision-making, often sharing a seat at the management table. They help determine when to downsize, outsource, retrain and recruit, manage the cost of employee and focus on building organizational capabilities.

In the information age information technologies and globalization has changed business processes and opened up new challenges for human resources.

Our 4th Annual Congress will therefore, walk us through the journey of ensuring we Honor the past of HR, Treasure its Present and start Shaping its Future by making Tomorrow, Today.
